

ST = Weekly Test - 2

6/6/28

4.

```
String url = "website www.google.com";
```

```
String url = "www.google.com";
```

```
WebDriver browser = new ChromeDriver();  
browser.get(url);
```

```
WebElement text = browser.findElement(By.cssSelector  
    ("input[type='text']"));  
text.sendKeys("Hello");  
browser.close();
```

3.

```
String url = "www.amazon.in";
```

```
WebDriver browser = new ChromeDriver();  
browser.get(url);
```

```
browser.manage().window().maximize();
```

```
WebElement page = browser.findElement(By.id("cancel"));  
page.getCurrentUrl().click();
```

```
page.dismiss();
```

```
page.navigate().click()getCurrentUrl().click();  
page.dismiss();
```

```
Thread.Sleep(2000);  
browser.close();
```
