

23/5/26

Weekend Test (ST)

① Data Type:

- type of data to be stored
- Declaration: datatype variable = value;
- Types of Data Type

primitive

- int Eg: int a = 5;
- char Eg: char b = 'A';
- float Eg: float f = 10.2f;
- double Eg: double d = 100.2.....;

Non-primitive

- String
Eg: String name = "John";

② Conditional Statement:

- Access the flow of the program
- perform action by giving condition.
- Types of Conditional Statement

If

Syntax:

```
if ( )  
{  
    statement  
}
```

Eg: if (a > b)
{
 ...
}

If-else

Syntax:

```
if ( )  
{  
    statement  
}  
else  
{  
    ...  
}
```

Eg: if (a > b)
{
 ...
}
else {
 ...
}

If-else ladder

Syntax:

```
if ( )  
{  
    statement  
}  
else if ( )  
{  
    ...  
}  
else if ( )  
{  
    statement  
}
```

Eg: if (a > b)

```
{  
    ...  
}  
else if (b > a)  
{  
    ...  
}
```

Nested-if

Syntax:

```
if ( )  
{  
  if ( )  
  {  
    ...  
  }  
}
```

Eq:

```
if (a > b)  
{  
  if (a >= b)  
  {  
    ...  
  }  
}
```

Switch

Syntax:

```
Switch  
{  
  case 1  
  {  
    ...  
  }  
  case 2  
  {  
    ...  
  }  
}
```

Eq:

Switch

```
case 1: Monday  
{  
  ...  
}  
case 2: Tuesday  
{  
  ...  
}  
break;
```

③ Looping Statement:

- Controls the flow of the program.
- Code execute with condition.
- Types of Looping

* For-loop

Syntax:

```
for (initialize; condition; increment/  
    decrement)  
{  
  ...  
}
```

Eq: for (int i = 0; i ≤ 10; i++);

```
{  
  ...  
}
```

* While-loop

Syntax:

```
while (condition)  
{  
  ...  
}
```

Eq:

```
int i = 0  
while (i ≤ 10)  
{  
  ...  
  i++  
}
```

* Do-while

Syntax:

do

{

...

} while ()

Ex:

int i = 1;

do

{

...

} while (i ≤ 10)

i++

④ Print odd numbers:

```
public class Odd {
```

```
    public static void main (String[] args)
```

```
    {
```

```
        for (int i = 0; i ≤ 20; i += 2) {
```

```
            if (i % 2 != 0) {
```

```
                System.out.println ("ODD Numbers: " + i);
```

```
            }
        }
```

OUTPUT:

ODD Numbers: 1 3 5 7 9 11 13 15 17 19

— X —
